1625	165	38'11"	71'
1630	193	43'11"	71'

* Other sizes available

MULTI-PURPOSE BINS:

Each Meridian Built Fertilizer Bin offers heavy-duty, no compromise construction. These tough bins are completely pre-welded, inspected, and then treated with Meridian's premium powder coating inside and out. The special powder chemistry allows for many years of corrosion and abrasion resistance even with fertilizer storage.

GRAIN MAX BINS:

Grain Max hopper bins offer top quality grain and seed storage at prices comparable to corrugated hopper combos. Without bolts and ribs, the Grain Max seamless interior allows for safe and easy unloading, while ensuring no seed or contaminants are trapped on the walls or joints.

\$773

18" inlet system for 19' Bin
30" and 36" diameter
Ideal to add air to
existing wood
or concrete bins
or quonsets.

**FLAMAN
ADVANTAGE**

Look for our **FLAMAN**
advantage highlighted
with a red button
throughout this guide.

Flaman – We believe in quality

*The Flaman Advantage offers
our customers extra value. These
packages are quality options at a
great price, with added convenience
to save you time.*

Grain Guard Rocket

We believe in quality.

*Grain Guard Rockets are the
standard aeration installed with
Meridian bin packages*

GRAIN GUARD ROCKET

*Designed for hopper bottom bins. This system
provides maximum airflow due to the downward
louvered design, greatly reducing screen blockage.*

- » Reduced static pressure reduces drying time
- » Increases aeration fan efficiency
- » Models and sizes for bins up to 25,000 BU

AERATION SOLUTIONS

FLAMAN JET AIR
3HP **\$1,395**
5, 7 & 10 also available

*Suited for Grain Guard Rocket.
Maximum airflow at higher static
pressures*

FLAMAN INLINE
3HP **\$1,295**
5, 7 & 10 also available

*Suited for round duct, 1/2 round
systems.*

FLAMAN TURBO
3HP **\$1,495**
5, 7 & 10 also available

*Suited for round duct, 1/2 round
systems. Excellent airflow at
high static pressure*

REM VRX GRAIN VAC

Rem's VRX Grain Vac is a brand new machine from top to bottom.

The VRX air system is designed for speed, efficiency and longevity.

The grain vac's specifically designed shape will minimize impact and maximize the auger feed.

Quiet, fast & easy to use

A Revolution in Grain Vacs

Auger Joints - Floating design for perfect alignment

Bearing Cartridge - 2.5 times the lifespan

Air Throttle - Automatically manages suction

- » Slammed gearbox technology – No bearing, flanges or chain coupler. Gearbox is in the tank & connected to the bottom auger with a drive dog.
- » Clean out door with leak-proof design.
- » Smooth chrome augers with double wall thickness.

- » Air lock – spring-loaded, two flap opener will go as far as needed for the grain to exit fast.
- » Specifically designed shape will minimize impact and maximize the auger feed.
- » 25% longer fan life

REM
ENTERPRISES

Be more competitive in the market!

Comes with 12v adapter for mobility in the field

Protein Tester

This compact instrument tests protein & moisture levels in wheat and barley (and oil content in canola).

Labtronics Moisture Meter

Portable Combine

Obtain a grain sample for a moisture test without starting your combine.

OPI GRAIN MANAGEMENT

StorMax Cable System

Remove the guesswork from grain storage management & replace it with certainty.

Your window into the bin

Choose the system that fits best with your farm

The **StorMax cable system** lets you proactively manage grain condition by providing you with the temperature and/or moisture readings so you can determine when and how long to run fans. Pair the cables with the **Integris** system and you can monitor your grain's condition directly from your computer. The **Integris Pro** system goes a step further, letting you control aeration and ventilation from your PC to automatically optimize grain quality.

FARM WAGONS

HORST 10 TONNE WAGON

Horst 10 ton running gear farm wagon
Versatile applications for the oil field or a job site.

- » Haul water tanks
- » Move pipe or scaffolding
- » Plus much more

BRUNS GRAVITY WAGON

Bruns gravity wagons' heavy-duty under chassis allows you to haul more grain further and easier. The innovative, sturdy bin design has no annoying inside ledges where grain waits to mix with your next crop. See at a glance what's left to unload with the handy bin windows on either side of the bin door.

Other features:

- » Optional Michel's roll-up tarp
- » 12 tonne running gear
- » Truck tires 385 wide, 22.5" rims

New 600 bu wagon
Get more capacity.

Tracked carts

Keeps you from getting stuck in the muck

Patented auger system for a closer, clearer view

TRACKED MODEL 1501

Unique hopper design for an easy clean out

Track system keeps you from getting stuck in the muck

BATCO CONVEYORS

Why choose a batco 2400 series conveyor?

- » Gentle handling of product
- » Lasts 3x longer than an auger
- » Quiet running, low HP requirements
- » Capacity up to 14,000 BHP
- » 23.5" belt with a 14" tube
- » Swingaway, field loader and drive-over units available
- » Lengths to 120' will accomodate bins up to 48' in height

Engine Options

Hydraulic, diesel or electric

43 L fuel tank

FLAMAN Where Farming Starts **15**

WE'RE MORE THAN JUST A STORE.

Medicine Hat – Our new expanded location

We are proud to have built a team that's able to bring you innovative solutions, not just sell you products. Our goal is to offer you a variety of items, so Flaman is the one place you go for what you need.

Flaman – Where farming starts

We're a family company. Flaman started on the farm over 50 years ago and has grown to be a name you can trust.

Flaman has been with us from the start

We have been customers at Flaman since 1987, the year we started farming. We currently shop at Flaman because we have a good rapport with our salesman David Sundlie. What keeps us coming back is their integrity - they do what they say they will do, and if something does go wrong, such as a missed delivery date, or equipment that doesn't quite live up to our expectations, the problem is made right by our salesman. They stand behind what they sell, and deal fairly.

Paul Larsen
Gateway Farms Ltd.

Paul and Maxine Larsen
with their family, Kevin,
Colleen, Shaun & Michael.
