DID YOU GET STUCK?

We want
to see your best
stuck in the muck
photos!

www.stuckinthemuck.com

Flaman Sales is once again hosting the Great Stuck in the Muck Photo Contest!

After farmers dealt with record rainfall last year, Jody "Joe" Kemp with Flaman Sales in Southey realized getting stuck in the mud was a province-wide epidemic. He came up with a contest where farmers could submit their best "stuck in the muck" photos online and share their experiences with each other.

The Great Stuck in the Muck Photo Contest was born! Due to last year's overwhelming success, Flaman Sales is hosting it again. But this year's contest will be bigger, with more winners and prizes! It's now open to entries from across Canada, so tell all your friends and family. And you could have your best "stuck" photo featured in a calendar for 2012!

The public will vote for their favourite photos, and now they can vote for pictures in different categories such as Best Overall Stuck, Best Tractor Stuck or Most Comical. The winners of these categories will get a new tow rope and be included in the calendar! Proceeds from calendar sales will support local charities.

Last year's contest had more than 320 users submit 369 photos, and the webpage received over a million page views! You can help us make this the best contest ever!

Here's how the contest works:

- Upload and view photos at www.stuckinthemuck.com starting March 1 until Sept. 30.
- Voting will begin in fall, watch for details.
- Category winners will get a tow rope and be in the calendar.
- There will be random winners again, so everyone has a chance to win!

Same Schulte quality... "priced for the farm"

FX1800

For farm or commercial use

15 foot cutting width ~ Minimum Tractor HP: 50 HP

Tackle any type of terrain with the FX 1800. This cutter features strong and durable 517 hubs and spindles, and Schulte's extra tough Super Suction 1/2" x 4" blades.

Greasable hingeline turnbuckles help reduce wear and extend the life of the cutter's parallel lifting mechanism. A single domed, continuously welded deck makes the cutter easy to clean and helps shed debris as you cut.

Available options include:

- 540 or 1000 RPM
- Forklift, aircraft or solid laminated tires
- Single or double chain guard
- Open clevis, adjustable clevis, precision or solid tongue hitch

**SCHULTE
Rotary Cutters**

XH600

*Designed To Work
in The Toughest
Terrain*

72" cutting width, standard 7 gauge deck and 1/4" side bands. Deck protection rings, HD four plate slip clutch for extra power.

FLX 15/FLX10 FLEX ARM

Operator comfort - tractor rides on road, can be easily backed up, effective use in wet conditions, attaches to all existing 15' & 10' series II cutters.
